PROFESSIONAL SUMMARY

Full Stack Web Developer with hands on experience building web applications using React.js, Next.js, and modern backend technologies. Developed fullstack projects involving realtime communication, secure authentication, and interactive user experiences, including a real-time Live Chat application. Strong foundation in Data Structures & Algorithms, RESTful API design, and application development. Eager to contribute as a Software Developer, with the flexibility to work across front-end, back-end, and full-stack responsibilities.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Python, C++, TypeScript
- **Frontend:** React.js, Next.js, Angular.js, HTML5, CSS3, Tailwind CSS
- **Backend & APIs:** Node.js, Express.js, FastAPI, RESTful API Design, JWT Authentication
- **Databases & Cloud:** MongoDB Atlas, MySQL, Convex, Netlify, Render
- **AI / ML:** LangChain, ChromaDB, Hugging Face Embeddings, RAG Systems, OpenAI & Anthropic APIs, Prompt Engineering
- **Tools:** Git, GitHub, VS Code, Postman, Clerk

PROJECTS

Live Chat App - Next.js, Convex, Clerk, Tailwind CSS

- Built a real-time chat platform supporting direct messages, group chats, typing indicators, and online presence, tested with 10 concurrent users and instant message delivery
- Implemented authentication and session management with Clerk, including protected routes and seamless identity sync
- Powered backend logic with Convex for instant delivery, unread counts, reactions, and soft-delete handling

DocChat - AI-Powered Document Chatbot - Next.js, FastAPI, LangChain, ChromaDB, TypeScript

- Built a RAG-based chatbot that lets users upload documents and query them through natural-language interaction
- Implemented semantic search using Hugging Face embeddings, LangChain, and ChromaDB for accurate, source-attributed responses
- Connected a TypeScript frontend to a FastAPI backend for efficient document processing and AI-driven conversations

Expert-Booking Platform - MongoDB, Express.js, React, Node.js

- Engineered a booking platform where users browse experts, schedule appointments, and manage booking history
- Secured authentication with JWT tokens and bcrypt hashing, backed by protected routes and middleware verification
- Built RESTful APIs in Express.js for expert management and bookings, including duplicate-booking prevention and admin CRUD tools
- Deployed end-to-end: frontend on Netlify, server on Render, database on MongoDB Atlas

EXPERIENCE

Full Stack Web Development Intern | GlobalNext Consulting India Pvt. Ltd.

Aug 2025 - Sep 2025

- Developed and enhanced web applications using React.js and Next.js, focusing on responsive interfaces, functionality, and user experience.
- Collaborated with team members to understand project requirements, implement features, and deliver solutions aligned with client expectations.
- Applied coding best practices, debugging techniques, and data privacy standards to maintain clean, secure, and maintainable applications.

EDUCATION

B.Tech in Computer Science Engineering | ADGIPS (GGSIPU), Delhi

2022 - 2026

12th Standard (CBSE, Science) | Army Public School

2022

10th Standard (CBSE) - 86.5% | Army Public School

2020

CERTIFICATIONS

- Front End Development (HTML/CSS/JavaScript) - Great Learning
- Artificial Intelligence and Machine Learning Training - AcmeGrade

EXTRACURRICULAR

- Competed in All India University (AIU) Football
- Member of the College Sports Committee - helped organize and run sports events
